THURSDAY EVENING, MARCH 7, 1901.

## LOCAL MATTERS

Forecast today at 6:25 a. m. and 5:58 p. m. High water at 9:00 a. m. and 9:16 p. m.

**WEATHER PROBABILITIES.**—For this section, fair and warmer tonight and Friday; light to fresh southerly wind.

**DEATH OF MR. GEORGE K. WITMER.**—Mr. George K. Witmer, a former resident and merchant of this city, whose critical illness had been announced in the Gazette, died in Baltimore yesterday. His death was due to pneumonia, but with two of his brothers, E. F. and Daniel Witmer, came to Alexandria half a century ago and engaged in the dry goods trade. Old residents will remember when they conducted business at the store now occupied by Messrs. Tackett and Marshall. In 1857 some old frame houses which stood on the site now occupied by Messrs. Iwan Ebbert and Son's store were demolished and the present structure erected, the upper stories to be used as a wholesale shoe house, and the Messrs. Witmer removed their business to the first floor, where the members of the firm remained for about a quarter of a century. At the close of the war the subject of this notice became general manager of the Mount Vernon Cotton Factory on north Washington street, a position he held for several years. He was later engaged in the insurance business in this city. About twenty years ago he removed to Baltimore, where he became agent of a well-known importer and manufacturer of gloves, in which occupation he continued until stricken down by paralysis. He remains will be brought to this city for interment.

**PERSONAL.**—Mr. Robert Porter and his son, Mr. Paul Porter, and his daughters, Misses Etta and Alva, have returned from a trip through the West Indies and along the northern coast of South America.

Mr. and Mrs. W. B. Smoot have returned from Palm Beach, Fla.

Miss Catharine Critcher, of the Mary Baldwin Seminary, in Staunton, has returned to that institution after a visit to her home in this city.

Captain J. V. Davis is quite sick at his home at the Soldiers' Cemetery.

Mrs. J. Kahn and Miss Hannah Weinberg, of Baltimore, are visiting Mrs. Joseph Kaufmann, on Fairfax street.

Mr. Fred Schwab, who has been seriously ill for some time, is recovering.

Mr. A. W. Armstrong has been appointed local attorney for the W. A. & M. V. Ry. Co.

Captain Joseph E. Willard, of Fairfax, one of the three candidates for the lieutenant governorship, was expected in Richmond last night, but did not get there. His family are now at the Jefferson, and he will probably reach the city today. [Richmond Dispatch.]

Rev. Frank Stringfellow is visiting Mr. J. W. Green.

Mr. Harry E. D. Mares has accepted a position as bookkeeper for Mr. D. W. Aitchison. His many friends wish him success, knowing him to be a competent young man for the position.

**STEAMBOAT COMPANY'S ELECTION.**—At the annual meeting of the stockholders of the Norfolk and Washington Steamboat Company held at the company's general offices, foot of Seventh street, Washington, yesterday, the directors were elected: John Boyd, William H. Butler, John Callahan, Daniel Fraser, William Galt, Edward Graves, C. F. Norment, George W. Parsons, and Levi Woodbury. At a subsequent meeting of the board of directors the following officers were elected for the ensuing year: Levi Woodbury, president; Clarence F. Norment, vice president; John Callahan, general manager, and Odell S. Smith, secretary and treasurer.

**DEPOSITIONS.**—The taking of depositions in the chancery cause of L. Stinson & Company vs. Thomas D. Downey et al., which has been in progress before Commissioner in Chancery Eugene B. Taylor for some time past, was completed today and the commissioner will now take the case under advisement and consideration and report his findings to the Corporation Court. This suit involves the settlement of the estate and interest of the heirs of the late Thomas Downey. The complainants are represented by Messrs. S. G. Brent and A. W. Armstrong, and the heirs of the late Thomas Downey by Messrs. J. M. Johnson and J. R. Carter.

**FUNERALS.**—The funeral of Mrs. Sophie Taylor, wife of Mr. Robert Taylor, took place this morning from her late home on the City Road. The services were conducted by Rev. Dr. Hunt and the interment was in Bethel cemetery.

The funeral of Miss Virginia W. Davis, who died on Wednesday morning, took place this evening from the Second Presbyterian Church and was attended by a number of friends of the deceased. The services were conducted by Rev. Dr. Brooke.

**OPERA HOUSE.**—The famous colored comedians, Cole and Johnson, will be the attraction at the Saturday matinee and evening, March 9, in their play "A Trip to Coontown." There are few more deservingly popular comedians and their humor is of that spontaneous kind that never fails to provoke hearty laughter. One of the secrets of their success is originality. Their work is surrounded by an atmosphere of newness and creativeness and is positively refreshing.

**FOR MANILA.**—The battalion of Fifth Cavalry which has for some time past been stationed at Fort Myer, is to leave Washington next Sunday for San Francisco, from which port the troops will sail for Manila to enter the campaign in the Philippines. The horses were shipped yesterday. The soldiers will sail on the Meade, which leaves March 16.

**THE U. S. SHIPS.**—The U. S. monitor Puritan, which went to Washington for the inaugural ceremonies, passed down the river this morning. The Dixie, which got aground off Maryland Point last Friday while on her way up the river, is still hard and fast.

A number of citizens have during the past few days been requested by strangers to charge money and their actions have been so strange as to arouse suspicion that attempts were being made to play the film-lam game.

## LOCAL BREVITIES.

The repairs to the boiler and furnace at the electric light works have been completed, and the lamps will be lighted tonight.

The charges against a huckster in the market for trespassing upon the property of another were settled before the Mayor yesterday.

At the meeting last night of the Columbia Fire Company three new members were elected and the usual routine business transacted.

Mr. James H. Reynolds, an old resident of Alexandria county, died yesterday morning at his residence, near Glen Carlyn, in that county.

A lady of Montford, Orange county, has written to a merchant of this city saying she would like to adopt a child about 5 or 6 years old.

Rev. Wm. Cabell Brown, missionary from Brazil, will deliver an address in Christ Church tomorrow (Friday) at 5 p. m. All are cordially invited to hear him.

The temperature continues quite cool, and considerable frost formed last night. At noon today the mercury registered 35°. During the night the mercury varied to 16°.

Services will be held in St. Paul's Church tomorrow afternoon in order to give the congregation the opportunity of hearing Rev. Wm. C. Brown, of Brazil, in Christ Church at 5 o'clock on that evening.

Members of Fitzgerald Council, Knights of Columbus, of this city, will leave on the 7:15 train for Washington tonight to witness the 6th degree to be given by Spaulding Council, K. of C., of the city.

Mr. John H. Fisher, a former Alexandria, and the son of Mr. Amos Fisher, of this city, died at his home in Brooklyn this morning, aged 79 years. The deceased had for a long time been a prominent merchant of Brooklyn.

A. W. Parker, son of the late Rev. G. W. Parker, a well-known colored minister of this city of thirty years ago, was in the city today. He left here over a quarter of a century ago and is now a prosperous coal and grain merchant in Omaha, Neb.

Mr. Park Agnew, chairman of the State republican committee, has decided to call the committee to meet at Murphy's Hall, in Richmond, on Tuesday night, the 19th inst., to decide the question of naming candidates for the constitutional convention.

It was reported to the police in Buffalo, N. Y., last night that nearly \$2,000 in cash had been stolen from the cash box of the Switchmen's Union of America. The money was kept in a vault in the union's headquarters in the Prudential building. The safe had not been forced. It was opened by working the combination, and a hasty search had been made among the papers for the little tin box containing the valuables. The police have no clue to the robber.

**ADVERTISING DID IT.**—That newspaper advertising will not only increase trade in an established business, but will even create a demand for new articles, has been proved by the success of a chocolate manufacturing firm. Before this firm began business the article as they offer it was unknown to the public. The present value of the firm's plant has been placed at more than one million dollars by the Massachusetts Court, and the proprietors affirm that this entire value was created by advertising, chiefly in the newspapers. [Philadelphia Record.]

**An Honest Medicine for La Grippe.**  
George W. Walt, of South Gardner, Me., says: "I have had the worst cough, cold, chills and grip and have taken lots of trash of no account, but profit to the vendor. Chamberlain's Cough Remedy is the only thing that has done any good whatever. I have used one bottle of it and the chills, cold and grip have all left me. I congratulate the manufacturers of an honest medicine." For sale by Richard Gibson, druggist.

**LINEN GAWNS OF 1901.**—Linen gowns of the prettiest colors and styles that have been worn since the linen gown came to its own are shown among the spring novelties. They are made with painstaking simplicity, which, however, does not prevent them from being trimmed with lace and embroidery. Blue, not the light shade of last year, but the soft, dull tint known as "blotting-paper blue"—bright rose, ecru, lilac and green are the favorite hues. A blue linen gown has a blouse front of yellowish batiste and revers of white pique. A rose-red linen has a pleated bodice and groups of fine pleats on the skirt. A sailor collar of ecru linen, with applique embroidery, is the only trimming. This is one of the most effective of these pretty costumes.

A katydid green with a sailor collar, chemise and cuffs of white duck embroidered with black is delightfully cool and summery in appearance. The skirt of these frocks is almost, if not quite, plain, and the bodices are all of the semi-fitting blouse or jacket type. This simplicity of style certainly goes a long way toward making the wearer of such a frock look fresh and youthful. Elaborate styles are aging even when they are becoming, but an elaborate yachting or other outing dress is apt to make even a very youthful woman look as if fussing and tilting were necessary to make her look well. [N. Y. Commercial Advertiser.]

**DR. RAINFORD ON THE RICH.**—The Stony Wood Sanatorium Building fund committee met Tuesday at the home of Mrs. Robert Macleay Ball, No. 40 East Fortieth street.

Dr. William S. Rainford spoke of the condition of the poor, saying that there is a great deal of talk about the uneducated poor who come to these shores, when, in fact, it is the uneducated rich who are largely at fault. The rich, he said, ought to do much more than they do to relieve the terrible conditions incident to poverty. "It is only by going among the poor and not by joining committees that good may be accomplished," declared Dr. Rainford. "There is now a bad of giving to found colleges and such institutions, and it is greatly overdone in some places. Only 5 per cent. of the millionaires of New York give anything to charity. The poor need help in two directions. They need good schools and good homes, in which they may have pure air to breathe. Heredity is not so strong as environment, and when light, well ventilated rooms are provided, tuberculosis can be overcome." [N. Y. Tribune.]

**AN AIR TORPEDO.**—A Swedish army officer has patented an air torpedo of a construction heretofore unknown and received a government subsidy for exploiting it, according to a communication to the State Department from Consul General Guenther at Frankfurt, Germany. According to the patent specifications the motion of the projectile is caused exclusively by a force which is developed in the torpedo itself by little from ignition of a gas generated from slowly burning material. The pressure of the gas gradually becomes stronger, and propels the torpedo by the arrangement which allows the gas to escape. Once in motion the torpedo increases its speed in accordance with the amount of gas pressure. The charge may consist of any explosive, provided the same is ignited only by shocks or blows. The initial velocity need be but slight, as the torpedo is impelled by its own force. Thus the discharge from the torpedo gun constructed for the purpose occasions no report or recoil, and but little pressure, making the handling of the device perfectly safe. At the trials made so far the torpedoes are reported to have traversed a distance of 18,000 feet.

**MARYLAND LEGISLATURE.**—The extra session of the Maryland legislature began at Annapolis yesterday. The 11 republican senators remained away from the chamber, and as there were two democratic absentees, only 13 members were present, so there was no quorum. In spite of this, the democrats elected John Huber president and other officers, but the republicans claim that this action was illegal. Senator Moore, who has been ill in Baltimore, expects to be at Annapolis today.

The House of Delegates organized with the election of General F. C. Latrobe speaker and other officers. The new election bill, the new census bill and the enabling act for a sewer system for Baltimore were introduced and referred to committees.

Chairman Vandiver, of the democratic State central committee, has issued a call for a meeting of that body at Annapolis next Tuesday afternoon.
